Mobile mixer Type 11/4-750.

- **Production rate: 6-9 m^3/hour.**
- **600/400 litre Pan mixer.**
- **Single aggregate hopper.**
- **Ideal for small construction projects.**
- **Cement supplied from 25 kg sacks or 1 tonne " Big-Bags".**
- **Optional integral cement auger conveyor.**

The compact design of the 11/4-750 makes it extremely versatile, particularly where there is a requirement to change site frequently and smaller quantities are required.

The first 11/4-750 units produced are still operating reliable after 10 years service.

Optional cement is fed to the pan mixer by auger conveyor from an integral 250 litre cement hopper.

Pre-mixed sand and aggregate is belt fed to the pan mixer where ingredients are accurately weigh batched.

Options include automatic mixer discharge in the control cycle.

Cement for the 11/4-750 is supplied from 25 kg. sacks or 1 tonne "Big-Bag", fed from separate optional silo and auger conveyor
